

SPRING 2019 NEWSLETTER

Cervical Screening Saves Lives Campaign

Public Health England (PHE) has recently launched a major new national campaign 'Cervical Screening Saves Lives' to increase the number of women attending their cervical screening across England. Around 2,600 women are diagnosed with cervical cancer in England each year, and around 690 women die from the disease, which is 2 deaths per day. It is estimated that if everyone attended screening regularly, 83% of cervical cancer cases could be prevented. **1 in 4 eligible women (those aged 25 to 64) in the UK are not attending their test. If you fall within this age bracket and have had an invite for cervical screening, then do not delay, book your appointment today.** This quick 5 minute test could be lifesaving...

! Exams - Special Conditions

If you require special conditions for your exam(s) eg; extra time for breaks due to a medical condition, please make a routine appointment with a doctor at **least 4 weeks before your exams are due to start** to discuss this, otherwise there may be a delay in your request being approved in time for your first exam.

! Do you know what to do if you are ill during exam period?

During exam times, you should seek prompt advice from the medical centre if illness affects your revision or exams. It is essential that you come to the medical centre before your exam is due to start. Please ensure you tell reception that you have an exam. **IMPORTANT:** All students (irrespective of whether you are registered with us or not) must come to the medical centre and see us (on the same day) if they are going to miss an event assessment, which include; ♦ Examinations ♦ Course Tests ♦ OSCEs (medical students) ♦ OSPEs (pharmacy students)

Visit our website www.umsuea.co.uk and click on 'exam/event assessment' for further information.

! Annual Health Monitoring Recalls

Do you have Diabetes? Epilepsy? Asthma? Or any other medical condition that you are recalled annually for? If you are due an annual review according to our records, you may soon be invited to have this. It is important to take advantage of these recalls, as it allows us to monitor your condition(s) and highlight any potential cause for concern. **Please check your emails regularly** to see if you have been recalled, and details on how to book.

Meningitis Awareness

Meningococcal meningitis and meningococcal septicaemia occur sporadically throughout the world. All new university entrants aged 24 or under are being offered immunisation against Meningococcal Meningitis ACW and Y as part of the NHS vaccination programme. **The Department of Health strongly recommends you have the Meningitis ACWY vaccine, especially if you are in your first year at university. Students are more vulnerable to meningitis because of living in halls of residence or shared housing with people from all over the world.**

www.meningitisnow.org/meningitis-explained/signs-and-symptoms/meningitis-children-and-young-people/

Mumps and Measles...are you vaccinated???

The NHS recommends that young adults are protected against mumps and measles by receiving two doses of MMR vaccine. The vaccine is available free on the NHS, to all adults and children who are not up to date with their two doses. For further information about the MMR vaccine click on this link > [MMR vaccination information leaflet](#)

If you would like to have either of the vaccines, please call reception on 01603 251600 to book. They are free on the NHS to all those eligible. Enjoy your time at university by making sure your health and wellbeing is a priority.

Appointments: “Keep it or cancel it! Don’t waste it!”

Ever wondered why it can be difficult to get an appointment with a GP/Nurse? **In February 2019, 332 people failed to attend their booked GP/Nurse appointment! This is equal to 55 hours of wasted appointments!!!** With increased demand for GP and nursing services and very little extra funding to facilitate this rise, reducing the DNA rate could make a significant difference to appointment availability. **PLEASE**...if you cannot make your appointment – cancel it!

Student Self Care Apps!

The student health app gives fast access to reliable health information on over 125 physical and mental health topics including;

- ◆ emergencies
- ◆ general ill health
- ◆ mental health
- ◆ common ailments and physical symptoms
- ◆ love, sex and relationships
- ◆ alcohol and drugs
- ◆ healthy living
- ◆ travel and fun
- ◆ long-term conditions
- ◆ safety

There is no need for internet access, information is reliable and developed with student health experts and students. It is available to download for FREE from the Apple App Store and Google Play for Android.

www.expertselfcare.com/health-apps/esc-student

The ‘distrACT’ app

This FREE app gives people who self-harm and/or feel suicidal, discreet access to information and advice, so they can manage difficult feelings, cope with a crisis and find help and support.

It has been developed by ESC with input from doctors, self-harm support organisation and users, and certified by the NHS England Information Standard.

Self-help resources include;

- ◆ distracting yourself
- ◆ dealing with feelings
- ◆ safer alternatives to self-harm

www.expertselfcare.com/health-apps/distract

Just1 Norfolk Health Passport App

Just 1 Norfolk Health Passport provides clear and reliable health information for young adults aged 16-19 living in Norfolk, covering topics such as;

- ◆ becoming independent
- ◆ mental health
- ◆ drugs and alcohol
- ◆ health and well being
- ◆ festival safety
- ◆ sex and sexuality
- ◆ travel safety

UEA Health & Wellbeing Service

Student Support Services (SSS) offer a range of professional, proactive and approachable services for students such as Mental Health advisers, Counsellors, general advisers, help with disability issues, finance issues and learning enhancement. Located on the Upper Street, between Waterstones Bookshop and the SU Building.

Opening hours and contact details;

Monday to Friday ◆ 09.00 - 17.00 ◆ Telephone 01603 592651 ◆ Email: studentsupport@uea.ac.uk

! Medication Review Dates

If you take regular medication, you will need to have a review on a regular basis - even if the prescription is on as a ‘repeat’ medication. How often you have a review depends on each individual and the type of drug. You will notice when you get your prescription, a ‘review date’ and you must book an appointment before this date to ensure continuity of your medication is not interrupted. **This is your responsibility.**

Travel Services...planning to go on holiday soon?

Whether you're off on a package holiday to relax, trekking through the Amazon, on Safari in Africa or exploring the world, our fully qualified and experienced Travel Health nurses can give you expert advice on staying healthy and safe abroad.

- ◆ Registered Yellow Fever Centre
- ◆ Full travel risk assessments and advice
- ◆ Travel vaccinations
- ◆ Malaria prophylaxis
- ◆ Free parking

Appointments are available throughout the week and you should aim to book your first appointment at least 8 weeks before you are due to travel. We do not give travel advice over the phone. Your initial appointment will be for 30 minutes and the specialist nurse will run through a personal assessment of risks/needs, taking into account your length of stay, activities and any existing health problems. This assessment will determine which vaccinations/medication you require. Subsequent appointments are usually 15 minutes.

Online Appointment Booking/Ordering Repeat Prescriptions

Did you know you can book/cancel/manage your appointments online, update your address and order repeat prescriptions? You can do all this via our website and/or smartphone app. It's quick and easy to use – **To sign up, contact umsuea@nhs.net with your name, date of birth and current address to receive your registration instructions.** You can book appointments up to 4 weeks in advance. Visit the app store from your mobile, download, sign in and away you go! Easy access to our appointment system and prescription service.
